President

## **ComSys Invited to Participate at the 9<sup>th</sup> Annual TAG Convention**

*Donald Bugos, President of ComSys, to Share His Expertise to Top Business Communications Providers in the U.S. and Canada*

GAINESVILLE, FL — February 3, 2009 — ComSys, an industry leader in business communications, announced today that Technology Assurance Group (TAG), an association of independently owned voice and data providers representing close to \$400 million in annual sales, invited Donald Bugos, president of ComSys, to participate in the discussions on the state of the industry at its 9<sup>th</sup> Annual TAG Convention. The audience will consist of the most reputable and successful providers located throughout the United States and Canada. TAG's 2009 National Convention will be held on March 27<sup>th</sup> – 29<sup>th</sup> in San Diego, California.

The theme for the upcoming year's convention is "The Future Is in Leading Our Industry". The convergence of voice and data technology is forcing two separate industries to integrate and become one, offering a complete managed services solution. Traditional voice companies are adding data solutions to their repertoire of services, while traditional data VARs are offering voice solutions. Those organizations that are completely immersed in providing both resulting in a true managed services model will survive and become the leaders of this new industry.

"It is an honor to share our knowledge and experiences in

managed services to our colleagues," said Mr. Bugos. "Managed services is going to greatly benefit small to medium sized businesses by helping to increase their profitability, improve productivity and give them a competitive advantage."

"The TAG Convention provides a unique opportunity where our member companies interact and learn better business practices from leading organizations," stated Dale Johnson, CEO of TAG. "Mr. Bugos is well respected among his peers and his company is one of our premier members."

### **ABOUT COMSYS**

The history of Communication Systems, Inc. (dba ComSys) dates back to 1981. ComSys is North Central Florida's most customer-oriented business telephone and data communications company – providing commercial customers with a single point of contact for quality, cost effective, converged communication solutions.
