Comsys Receives Top Industry Award From Clearly Communications

GAINESVILLE, FL — June 18, 2015 — ComSys, a leading unified communications provider, announced today that the company received Clearlyfly's top award at the 15th Annual TAG Convention held in Savannah, GA in April. Technology Assurance Group (TAG) is an international organization of independently owned unified communications companies in the United States and Canada. Clearlyfly selected ComSys as the winner of the Excellence in Customer Satisfaction for SIP Delivery and Support Award. ComSys accepted the award at the prestigious awards ceremony attended by the dominant forces of unified communications, including TAG's Member companies and leading technology manufacturers.

After 2014 Clearlyfly analyzed a great deal of information including overall customer satisfaction, their partners ability to coordinate timely ports, their ability to move, add or install a new system with minimal to zero down time, and how frequently the partners were able to coordinate all of these tasks seamlessly. The result was very high customer satisfaction and so they chose to award their top partners. "The importance placed on one's ability to communicate over today's IT infrastructure couldn't be more critical to a business, and we are proud to say these partners performed excellent", said Sam Johnson,

Channel Account Manager for Clearlyfly. "Coincidentally a majority of award winners were also members of TAG." The award was received by Donald Bugos, President of ComSys. "We are honored to accept this award. Our company always strives to be on the leading edge of technology," said Mr. Bugos. "Clearlyfly provides industry leading Session Initiated Protocol (SIP) trunking to our customers and we're proud to be their business partner."

ABOUT COMSYS

The history of Communication Systems, Inc. (dba ComSys) dates back to 1981.

The company is North Central Florida's most customer-oriented business technology solutions company - providing commercial customers with a single point of contact for quality, cost effective, converged voice and data solutions.

ComSys recognizes the critical need for a solutions provider that combines leading edge technology with quality service and support, and, is committed to establishing lasting business relationships with their clients. The company's goal is maximum customer satisfaction through total customer service.

ComSys is one of a select few converged solution providers nationwide that qualify to be a Technology Assurance Group (TAG) member.

ComSys provides VoIP Telephone Systems, Hosted Phone Systems, Call Center Solutions, Video Solutions, Structured Cabling and Wiring to businesses throughout the Gainesville, Ocala, Lake City and Leesburg areas. Our National Services Network can support and deliver our full range of products and services almost anywhere in the United States.

ABOUT CLEARFLY

Clearlyfly Communications is a voice services and broadband provider serving a majority of the United States with a primary focus on solutions for small and medium-size businesses. At the core of Clearlyfly's value proposition is a suite of services comprising scalable, wire-line broadband and a traditional business phone line replacement service. Clearlyfly's go to market strategy is founded upon the valuable relationships with Voice and Data Integrators such as TAG Members. Clearlyfly recognizes and respects the reputation of the Integrator because it is the most important factor relative to the continued deployment and support of our SIP and data services.
