Technology Assurance Group Invites Donald Bugos, President of ComSys, to Offer His Views on the Latest Technologies Impacting the SMB Marketplace

Industry Leader to Lend His Expertise and Years of Experience to U.S. and Canada's Top Technology Providers at TAG's Annual Convention

GAINESVILLE, FL — January 30, 2011 — ComSys, an industry leader in unified communications, announced today that Technology Assurance Group (TAG), an international organization of leading independently owned unified communications companies representing over \$350 million in annual sales, invited Donald Bugos, President of ComSys, to present on the latest technologies impacting small to mid-sized businesses (SMB) at the 11th Annual TAG Convention. Mr. Bugos will share his extensive industry expertise and company's experiences with top technology providers located throughout the United States and Canada. TAG's 2011 Annual Convention will be held on March 16th – 18th in San Antonio, Texas.

With the growth of cloud-based technologies, the theme of the 2011 Annual Convention is "Find Your Silver Lining in the Cloud." SMBs have begun to fully understand the true value of cloud technologies and the market is set to explode. According to predictions by IDC Research, "By 2014, sales of cloud computing products or services will generate almost \$56 billion in annual revenues." The expansion of

cloud technologies will not only have a profound impact on the technology sector, but this growth will transform the manner in which SMBs conduct business across all industries. Bugos will share his views on the future of cloud technologies, virtualization, hosted solutions, and managed services with other industry professionals. As a well-respected business leader in the industry, many of his peers will gain valuable insight on where the cloud is taking businesses.

"We've always placed the utmost importance on being on the leading edge of technology which is why we spend so much time and energy educating our employees," commented Bugos. "When we truly understand where our industry is headed, it makes it much easier to increase our customers' profitability and give them a competitive advantage. An ancillary benefit to running our organization in this manner is that we are able to share our experiences with our colleagues at events like the TAG Convention."

"The TAG Convention brings the brightest minds and most innovative thinkers in our industry together to share best practices, learn from one another and plan for a successful future," stated Brian Suerth, EVP and Partner of Technology Assurance Group. "We are honored to have President

Bugos at our event, and we all look forward to learning from him."

ABOUT COMSYS

The history of Communication Systems, Inc. (dba ComSys) dates back to 1981. ComSys is North Central Florida's most customer-oriented business telephone and data communications company – providing commercial customers with a single point of contact for quality, cost effective, converged communication solutions.
